

Corinne & Matt

Hello!

Thank you for taking the time to get to know us. We can only imagine the challenges you are facing, but we are inspired by your courage to choose adoption. Matt and I feel that God has called us to adopt. We believe that He will grant you peace of mind when you find a family that's right for your child. We hope this book gives you a glimpse into the life we can provide full of love, acceptance, and adventure. We are so excited to brighten our home with a child's laughter.

A few of **OUR FAVORITE THINGS**

- * Family movie nights
- * Playing games
- * Going to hockey games
- * Escape rooms

Our story

*M*att and I met during our first year in college. When he brought a puppy to campus, I just knew I had to talk to him! After that first meeting we developed a great friendship and started dating two years later. That foundation of friendship led us to a deep understanding and love for each other. Through nearly ten years of marriage, starting a home in a new place, and many adventures we have learned that patience, compassion, and laughter are crucial for our happy home. Now we're ready for our next step, to welcome a child with open arms.

ALL ABOUT *Corinne*

A NOTE FROM MATT

In every corner of the earth, there exists a peaceful spirit, and my wife is a symbol of that peace. Like a clear lake, she reflects calmness and stability, finding joy in the beauty of the world around her. Her loving heart embraces everything with warmth, creating a peaceful haven for those lucky enough to be in her presence.

With an insatiable curiosity, she explores every trail & hidden path, much like a gentle breeze that dances through the trees, bringing life and joy wherever it goes. Her laughter is like the sound of a babbling brook, soothing and uplifting, filling our home with warmth and comfort.

She has a deep connection to nature, finding peace among the flowers, much like a butterfly that flits from bloom to bloom. Her spirit is as vibrant as the colors of a sunset, illuminating the lives of those fortunate enough to know her.

As we embark on this journey of adoption, I am filled with gratitude for her wild and loving spirit, knowing that together, we will nurture a new life, instilling in our future child the same adventurous love for the world around us.

~Matt

CORINNE'S FAVORITE THINGS

- * Reading
- * All things Disney
- * Animals & being outside
- * Quality time with friends & family

A NOTE FROM CORINNE

ALL ABOUT

Matt

Matt is the silliest, most dedicated, and ethical person I know. I am constantly amazed at his creativity and ability to solve problems.

Those qualities come in handy a lot with his work as an engineer. He is the planner of the family, always looking ahead and steering us onto a good path. What first attracted me to Matt was his ability to make me laugh and his

kindness. Even when we face difficult situations, he finds a way to make a joke and lighten the mood. He encourages me to reach my full potential and he will do the same for our children. I cannot wait to see him as a father. He learned a lot from spending time with his nieces and nephews and listening to his parents who are the kindest people I know.

Some of my favorite memories of Matt are when he's able to play like a kid, so I know playtime will be important for him and our kids. He'll teach them how to choose what is right instead of what is easy and to never give up on their dreams.

~Carinne

MATT'S FAVORITE THINGS

- * Biking
- * All things Marvel
- * Wood burning

Our family

Matt and I followed our careers and moved away from our families, but we are still very close to them in spirit! We regularly talk on the phone and see each family once or twice a year. Going to visit family is a great vacation option for us whether we visit our childhood homes or meet somewhere in the middle. Matt has been an uncle pretty much his whole life with several nieces and nephews. Corinne's sister has a little girl and is expecting another, so the whole family loves and is ready for another little one!

Our friends

We had a hard time moving so far away from family, so our friends have meant the world to us. We've surrounded ourselves with warm, loving, and silly people. A few of our friends have recently had children so our little one has playmates at-the-ready! Many of the people closest to us have said how excited they are to be "aunties & uncles" to the child we welcome into our home.

Our Home

We live in a two-story, three bedroom home. What has been our guest bedroom is being converted into our nursery with a woodland animals theme. The first floor has lots of space for toys and activities. Our backyard is fenced in with plenty of space for a playset. We love grilling, using our smoker, and entertaining friends and family. Our neighborhood is fairly small with lots of kids and little traffic. Our road is a dead end, so we don't have a lot of extra cars driving by. It's a great place to go for walks or bike rides!

Thank you

We have the deepest appreciation & respect for your choice in adoption. Thank you for taking the time to get to know us. We are keeping you in our minds & hearts & praying for you.
